Fraunhofer TESTED® DEVICE Atlas Copco IT AB ETD MT21-25-HIM4 Report No. AT 2307-1439

Statement of Qualification

Single product
Particle Emission

Statement of Qualification • Single product

Customer	Atlas Copco Industrial Technique AB Sickla Industriväg 15 SE-105 23 Stockholm Sweden	Test result / Classification	Screwdriver ETD MT21-25-HM4 in combination unit MT Focus 6000 and MT Power Supply is so	When operated under the specified test conditions, the Transducerized Screwdriver ETD MT21-25-HM4 in combination with Control and drive unit MT Focus 6000 and MT Power Supply is suitable for use in cleanrooms fulfilling the specifications of the following Air Cleanliness Classes according to ISO 14644-1:	
Component tested			Test parameter(s)	Air Cleanlines Class	
Category:	Working Place and Operator		Screwdriver: Installation position = horizontal Frequency = 1000/min	7	
Subcategory:	Work Equipment		Cycle = movement: 15s; pause: 5s	4	
Product name:	Transducerized Screwdriver ETD MT21-25-HM4 (manufacturing date: week 19/2023; color: black; serial number: B5522281)		Control and drive unit MT Focus 6000 MT Power Supply	1	
	 in combination with: Control and drive unit MT Focus 6000 (manufacturing date: week 35/2020; color: black; article number: 		Overall result	7	
	 8432 0851 00; serial number: C2690001) MT Power Supply (manufacturing date: week 41/2020; color: black; article number:		Please note: Transport damages, incorrect insta behavior, etc. can influence the test result.	illation, oil leakage, aging	
Random sampling of particle emissions (airbor	rne) at representative sites				
Standards/Guidelines:	ISO 14644-1, -14 The norms stated generally refer to the version valid at the time of the tests.				
Test devices:	Optical particle counter: LasAir II 110 and LasAir III 110 with measuring ranges $\geq 0.1 \mu\text{m}$, $\geq 0.2 \mu\text{m}$, $\geq 0.3 \mu\text{m}$, $\geq 0.5 \mu\text{m}$, $\geq 1.0 \mu\text{m}$ and $\geq 5.0 \mu\text{m}$				
Test environment parameters:	 Cleanroom Air Cleanliness Class (according to ISO 14644-1):	-	fication tests are calibrated at regular intervals; their results ca		
Test procedure parameters:	 Installation position:	regulations and norms applicable at the ti	re no national standards exist, the test procedure implemente ime of the test. The relevant documentation can be viewed or he test environment can be found in the Fraunhofer IPA test r	n request at any time.
